on
“Environment, Health and Policy Nexus”
27-28th July-2017

Organized by

Department of Water and Health
&
Health System Management Studies
Jagadguru Sri Shivarathreswara University
Mysuru-570015, India

Conference Website: <http://icehpn2017.com/>

CORDIAL INVITATION

Dear Researchers,

Environment and Health constitute an indispensable matrix affecting human health. The new scenario evolving in our environment is highly dreadful as more and more kinds of illnesses, both communicable and non-communicable, are surfacing the world over with a blitzkrieg pace. The current legislation and policy plays a key role in the environmental quality and validation, which transmit a large number of deadly and/or debilitating diseases at global level. These infirmities of environment and legislations not only affect the health of the people, they also stunt their intelligentsia and sap off their socio-economic conditions. Understanding the relations of environment, health and policy is instrumental to alleviate human health risks suffering due to polluted environment.

The International Conference on **“Environment, Health, and Policy Nexus”** will hopefully provide a unique opportunity to bring all the possible knowledge on such a vital subject converge at one platform for extensive deliberation and solution-finding exercise.

With kind regards and looking forward to having your active participation in the international conference. We remain,

Yours sincerely,
Organizing Secretaries

ABOUT MYSURU CITY

Mysuru was the previous capital city in the state of Karnataka, India. The city covers an area of 128.42 km² (50 sq mi) and is situated at the base of the Chamundi Hills. Mysuru is also known as the Palace City of India. Revisit the glorious days of Wodeyar dynasty as you take a walk through the largest palace in India. Amba Vilas Palace, witness the splendid architecture and the glory of the past that will enthrall the history lover in you. A home for all the tourists of Karnataka, Mysore Palace is one of the most visited tourist destination in this state.

ABOUT JSS UNIVERSITY

JSS University is a culmination of half a century of perseverance in the field of education steered by the philosophy of noble minds. The sponsoring society of the University, JSS Mahavidyapeetha, Mysuru, is known for its contribution in the field of education not only in the region but also nationally and internationally and several thousands of alumni who have graduated from more than 300 institutions managed by JSS Mahavidyapeetha have reached the position of eminence globally. JSS University

has created a vigorous and intellectually stimulating ambience conducive to learning and reflection.

ABOUT DW&H and HSMS

Department of Water & Health (DW&H) is enunciated in the JSS University's Strategic Planning Framework. It has a vision and a mission of achieving national and international distinction while strengthening local relevance. As the DW&H covers a wide spectrum of biological, biomedical and environmental sciences with several interdisciplinary research areas, it provides plethora of job opportunities at various field of life sciences such environmental management, water and health care, biotechnology, microbiology, toxicology and food sciences plan a major role in improving the quality of life. Health System Management Studies (HSMS) will be a sector specific course designed to enable candidates to craft a career in hospital management accepting positions of prime importance. It provides an environment that enables students to benefit and learn nuances of Hospital Management with live experience in tertiary care teaching hospital.

ABOUT THE CONFERENCE

International conference on Environment, Health & Policy Nexus is organized by the Department of Water & Health and Health System Management Studies, JSS University, Mysuru. It is one of the kinds, which focuses on the environmental and health issues at local as well as global level. Also, the conference enlightens role of environmental policies in environment and human health and its interrelationships. The conference focuses to bring together leading academicians, scientists, researchers, and professionals to exchange and share their experiences and research results on all aspects of environment, health, and policy nexus. It also provides a premier interdisciplinary platform for researchers, practitioners, and educators to exchange the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields. The aim of this conference is to meet the requirements of environmentalists, health professionals, policy and decision makers to staying up-to-date on the latest developments in this field. The conference offers an exciting program that will not only facilitate exchange of knowledge among the participants, but also encourage the presenting their research in the environment, health and policy nexus. In view of this objective, therefore, the conference focuses on creating awareness among all the public and private stake-holders to maintain a better environment for their livelihood and sustainability.

The conference helps to gain knowledge about best practices and obtain advice on implementing the following practices in environment and health issues
Get insights on and define the validation and legislative changes for the prospective of environment and public health

Manage and mitigate the liability associated with the environment and health issues
Stay updated on the new environment, public health, and legislation
Dealing with major environmental issues and develop risk mitigation strategies
Gain clarity on environmental management, policy and relevant health issues
Ensure compliance with the latest environmental tools and technology, policies
instrument and regulations, socio-economic impacts, etc.

Mr. Anil Kumar KM, FLS, JSSU
Mr. Midhun G, FLS, JSSU
Ms. Pallavi S, FLS, JSSU

HOW TO REACH MYSURU

By Air: The nearest major airport to Mysuru is the new Bangaluru International Airport, which is about 170 kilometers away. Bangaluru itself is very well-connected to all major cities in India. It takes about three hours by road to reach Mysuru from Bangaluru. You can take a KSRTC bus, a train or a taxi from Bangaluru.

By Bus: You can also take the bus from Kempegowda Bus Station in Majestic (near the Bangaluru City Railway Station) to Mysuru. There are several options of state transport buses as well as private tour operators. Tickets are easily available at the bus station ticket counters.

By Train: Mysuru is very well connected by rail throughout the region and the railway station is just about 2 kilometers from the city centre. You will find many express trains between Bangaluru and Mysuru that cover the distance between the two cities in about

three hours. Bangaluru itself is very well-connected to most other cities in India. Some of the trains plying between the two nodes include Tippu Express, Chamundi Express, Kaveri Express and Mysore Express.
