THE LEGACY

Sri Suttur Veerasimhasana Math

Sri Jagadguru Veerasimhasana Suttur Math with a long history of more than one thousand years is a multi-dimensional institute of the Veerashaiva community that has contributed immensely to the cause of societal advancement. The welfare activities of the Math transcend the sectarian limits of the Veerashaiva community and encompass a much wider and larger following of all the sections of Indian society.

Sri Suttur Veerasimhasana Math can most aptly be described as an active ongoing movement to uphold the cause of social and economic justice, based on spiritual values and ideals. The Math's activities at Suttur have today spread far beyond the small region on the banks of the river Kapila in Karnataka to touch the lives of millions – going beyond the boundaries of our country, and even to the distant shores of western nations.
