

JSS Academy of Higher Education and Research

Central Animal facility,

Centre for Experimental Pharmacology and Toxicology (CPT)

Working guidelines at CPT vivarium

1. Investigator should have a valid IAEC approval for conducting the study. As per Form -B submission, only the investigator and co-investigator will be permitted to work in the vivarium
2. Candidate is advised to get vaccinated (TT) before initiating animal study.
3. Candidate has to provide study details viz, study initiation and completion date, behavioural assay date if any, necropsy date, well in advance to the coordinator, CPT. Any changes in the study date has to be informed in advance.
4. Candidate should enter the CPT vivarium with hand gloves, face mask, shoe cover and apron. Also, to enter the log book on entry and exit time. In no case CPT will provide personal protective equipment (PPE) and also the candidate will not be allowed inside vivarium without PPE
5. CPT will not provide any storage facility for drugs/chemicals/biological samples.
6. The investigator should attend his/her allotted animals daily following the receipt.
7. CPT is not responsible for any spontaneous mortality and morbidity in animals
8. All consumables required to conduct the study including drugs, oral gavage, blood collection and necropsy requirements, anaesthesia/euthanasia drugs (only CPCSEA approved drug should be used), glass and plasticwares etc. must be brought by the candidate, CPT will not provide any consumables/chemicals
9. Based on the CPT master schedule, coordinator will allocate the experimental room and dates of initiation of study, this is to avoid the overlap in the use of facilities
10. The candidate should confine his/her movement only to the allocated experimental room (entering into other experimental rooms is strictly prohibited). Use of camera, music gadgets, photo/videography is prohibited. However, if experimental protocol mandates photography it will be permitted with due approval from the Coordinator
11. Candidates using various behavioural facilities - mazes, camera, etc should ensure the cleanliness, working condition of the gadgets. Any breakage to camera, mazes should be borne by the user
12. Candidates to understand the CPT biomedical waste disposal procedure and abide to it
13. Technical or scientific information of the project shall not be disclosed with CPT members or coordinator
14. CPT will not be responsible for any personal belongings.

****Please Fill the Access form for visiting/Conducting study**

Coordinator, CPT

Access Request Form
