#### 1.4 – Feedback System

1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution?  
(maximum 500 words)

Feedback Obtained
<p>The student's evaluation of their learning experience is an integral and necessary component of any quality assurance system as adopted by universities as it allows the institution to evaluate how its service provision is viewed by its most important group of stakeholders, namely its students. Besides providing them with an opportunity to comment on the quality of courses, feedback ensures that teachers are made aware of problems perceived or encountered by students and provides an opportunity for tutors to conduct the self evaluation and introspection for improvement</p> <p><b>MODE OF FEEDBACK COLLECTION:</b> Feedback collection can be made either online or offline modes. Online mode includes submission of responses on the portal of JSS Academy of Higher Education and Research while offline submission involves the manual submission of feedback through the printed questionnaire provided by the institution at the requisite schedule. The qualitative feedback in the form of appreciation letters, emails are also analyzed.</p> <p><b>FEEDBACK ANALYSIS</b> The IQAC is responsible for the analysis of the feedback. This mechanism involves the compilation of data collected from various stakeholders in the prescribed format and a copy of the analysis and recommendations are placed before the IQAC meetings and in the Academic Council meetings for action. This task is to be carried out by the assigned faculty through the Head of the institution. The format (excel sheet) for the same will be provided. The feedback collected manually will be analyzed by assigned faculty and the scores to be submitted to the Head of the institution for the compilation of data.</p> <p><b>FEEDBACK REVIEW RECOMMENDATIONS</b> On the basis of the feedback received from various stakeholders, the feedback coordinator will compile the final observations (includes departmental average and institutional average) and the same will be put forth for further action by the respective program committee</p> <p><b>ACTION TAKEN</b> On the basis of feedback review and recommendations given by the program committee, the final action/ resolution to be taken by the head of the institution and documented and communicated to the Internal Quality Assurance Cell</p>

The advanced learners and slow learners of a subject area identified by the concerned faculty, based on their performance in the internal assessment examinations and annual examinations. They are also identified based on their active participation, involvement, performance in the classroom/practical hall dynamics.
